

# Project Commitments

Elizabeth Brady Road Extension  
Orange County, North Carolina  
Federal-Aid No. STP-0711(1)  
NCDOT Project Definition: 34975.1.1  
STIP No. U-3808

## *Project Development and Environmental Analysis Branch, Roadway Design Unit, Division 7*

- Should Alternative 4 be selected, the State Historic Preservation Office (SHPO) made a No Adverse Effect determination for Alternative 4 with environmental commitments. The following commitments will apply: 1) land clearing in the vicinity of the Occoneechee Speedway will be minimized, and 2) the SHPO will review the Eno River bridge design during final design.
- Should Alternative 3 be selected, a Memorandum of Agreement will be prepared among SHPO, FHWA, NCDOT and other consulting parties regarding measures to minimize and mitigate impacts to the Occoneechee Speedway and Ayr Mount which is within the Hillsborough Historic District.
- A survey will be conducted for the dwarf wedge mussel, protected species, in the corridor prior to the selection of the Least Environmentally Damaging Practicable Alternative (LEDPA).
- Additional archaeological field studies will be conducted for the Preferred Alternative to determine whether archaeological resources exist within the alignment.

## *Division 7 Construction, Roadway Design Unit*

- There will be no dredging of the Eno River or fill material placed in the Eno River.
