

Eno River Association's Group Presentations & Guided Experiences

The Eno River Association (ERA) is a nonprofit land trust founded in 1966 with a mission to protect the natural, cultural, and historical resources of the Eno River Basin.

If your community group is interested in hearing about the ecology and history of the Eno River as well as the work that we do to protect it and how you can get involved, we would be happy to come visit with you or take you on a guided hike!

Ever-Flowing Eno:

45 minute talk + 15 Q&A Session – \$60

This pre-packaged presentation will provide the audience with an understanding of the rich history, ecological significance, and modern-day protection efforts of the Eno River.

Tailored Talk:

Maximum 1 hour presentation + Q&A session – \$80

If your group has a particular interest that relates to the Eno, we can tailor a talk to fit your group's needs. Examples include historical focuses, wildflowers and/or wildlife of the Eno, etc.

Guided Experience:

1.5 to 2 hours, depending on location – \$100

This may include a guided hike along the Eno or a specific environmental education experience, such as macroinvertebrate catching in the river.

Please note that all revenue generated from these programs goes back into our Education & Outreach budget and helps us to continue teaching throughout the Eno River Basin!
