If you were a bird, which branch on this huge cedar tree would you want to build your nest?

What animals do you see in this river? Do you see any animals on the riverbank?

This property was a farm before it was saved as a natural area by the Eno River Association. What do you think this equipment was used for? Why do you think it was left here?

These carvings are from the people that operated Shepperd's Mill that once stood here back in the 1800 and early 1900s. Why do you think they would carve into the stone?

How many trunks does this tree have? Why do you think it has more than one?

What type of bird uses this type of feeder? Do you know the ingredients in this bird food?
